

ViVOpay 3000 Contactless Payment System

Contactless payment systems are an exciting new technology, which will enable your consumers to complete transactions by waving their payment cards in front of a contactless reader. The ViVOpay 3000 is one of the most advanced contactless readers available and is designed to provide you with fast, convenient and safe transactions.

EASY INSTALLATION

The ViVOpay 3000 is easy to install and enables contactless payments without hardware or software changes to your current equipment. The device features plug-and-play hardware, allowing you to use it as soon as it is plugged into your existing POS terminal.

IDEAL FOR BUSINESSES THAT RELY ON SPEED AND CONVENIENCE

- Quick service restaurants
- Transit servicesGas stations
- Hospitality areas
- Conveniences stores
- Car rental businesses
- Parking facilities
- Ticket booths
- Single and multi-lane retail locations

THE FIRST INTEROPERABLE CONTACTLESS READER

The ViVOpay 3000 is compatible with all of the primary contactless brands, giving your customers a variety of payment options. The ViVOpay 3000 is capable of accepting MasterCard Paypass™, Expresspay™ from American Express®, Discover® Card contactless and Visa® payWave™ payment programs in addition to private label contactless gift and loyalty cards.

ADD THIS ESSENTIAL CONTACTLESS SOLUTION TO YOUR BUSINESS

The ViVOpay 3000 is designed to fit any sales counter and can be placed conveniently for checkout without having to move your POS terminal. Additionally, your customers will appreciate the convenience and security of not having to display a card for payment. Contact your local sales office and add this payment innovation to your business today.
