

WAY Systems Mobile Transaction Terminal (MTT)

The WAY Systems MTT utilizes cellular phone technology to process transactions quickly and securely from any location. The MTT enables you to leave your storefront and conduct transactions virtually anywhere in the country and supports a high-speed data connection so that your transactions are finalized within a matter of seconds.

A COMPLETE WIRELESS SOLUTION

The Way Systems MTT can process all credit and smart card transactions and can be equipped with a debit card reader to provide your customers with a variety of payment options. Additionally, the MTT can be combined with a lightweight wireless printer.

IMPRESSIVE FEATURES

- Nationwide coverage
- User friendly interface
- Arrives fully programmed and pre-activated
- Compact and light weight (6 ounces)

ADD THE BENEFITS OF WIRELESS PAYMENTS TO YOUR BUSINESS

Improve efficiency and increase sales with the Way Systems MTT. This terminal combines the functionality of a POS terminal with the convenience of a cellular phone. The MTT is compact, fast and easy to use, making it the ideal wireless transaction terminal for businesses that have mobile processing needs. Contact United Bank Card today and learn more about this impressive terminal.
